

INFO PACK

for project „ Creativity 4 Human Rights ”

1 September – 9 September 2022

Bansko, Bulgaria

SUMMARY OF THE PROJECT

According to the latest “Fundamental Rights Agency (FRA)” (2021) report” the pandemic exacerbated existing inequalities, widening the gap between rich and poor and disproportionately affecting those in precarious and low-income jobs, young people, women and minority ethnic groups”. Many other sources show clearly the increasing levels of hate speech and bullying, especially in the online environment since all the social distancing and lockdowns. The internet and social networks became even more powerful than before—one of the few places for young people to express themselves and due to its anonymity it makes it also a field for growing hatred. Unfortunately, along with all those sad statistics on European level, we the project team members have experienced this ourselves as young people with migrant background, /cultural differences, youth from minority groups thus we believe we need to spread awareness among our peers on European level about those social issues and encourage youth engagement in combating hate speech, intolerance and bullying. Through the project we aim at providing at first place awareness and understanding of human rights in general and more specifically hate speech and cyber bullying among youth and to make them understand this is not the normality and hate speech is not freedom of expression.

Moreover, we also aim at providing youth with powerful tools and ways to combat those challenges, more specifically by presenting them No hate speech movement campaign as well as graffiti and storytelling as ways to express themselves and engage in promoting human rights. We would like to encourage analytical and critical thinking and make youth reflect on their role in promoting and fighting for human rights.

The main objectives of the project proposal are:

- Raising awareness among youth on human rights issues such as cyberbullying and hate speech
- providing youth with knowledge and skills for combating cyberbullying in nonviolent ways and channels to report it
- promoting media literacy, analytical and critical thinking and thus stimulating the civic engagement of young people in the field of human rights protection through art
- promoting graffiti and storytelling as effective non violent tools to promote and stand up for human rights
